

Bringing the world's
creators together.

Our problem:

Small business owners have a hard time finding a physical space to work in or to sell their products in. These spaces are often too: expensive, large, or difficult to navigate as a single leasor.

Our solution:

Bring creators together under one roof to lease together, complement each other's products (synergize), and build a creative community.

Our tasks:

Simple

Find an affordable place to rent with another small creative businesses.

Moderate

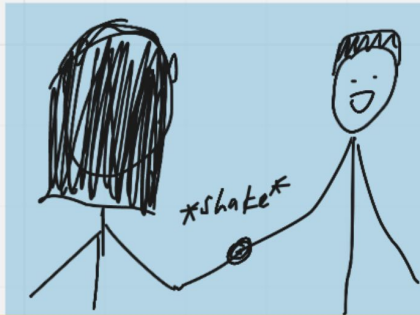

Compare different leasing options to determine what space is best for you and your fellow creators together.

Complex

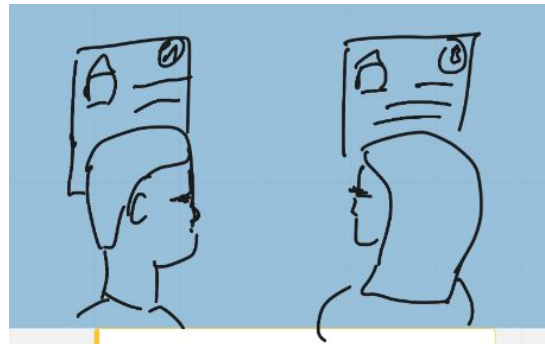

Navigate and finalize a leasing agreement along with the other creators sharing your space.

Storyboards

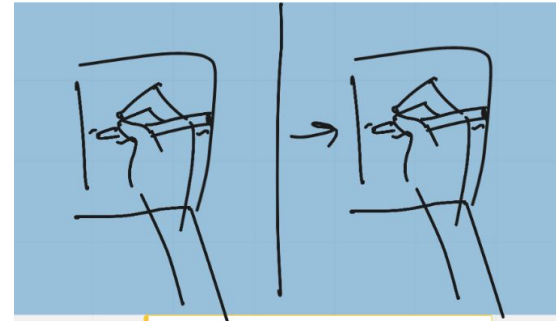

A sampling of scenes:

Angle: Eye-level
Zoom level: Tight
Actors: Robert and Person 2
Dialog: None
Explanation: Robert and Person 2 are meeting each other by shaking hands (both are smiling) in Coalease's "app" which will eventually be their own shared physical space.

Angle: Eye-level
Zoom level: Medium
Actors: Robert and Person 2
Dialog: Discussing lease options (not audible against the background music)
Explanation: Robert and Person 2 are looking at each other and discussing between both lease options and are still in the space representing Coalease's "app."

Angle: Bird's eye view
Zoom level: Tight
Actors: Robert and Person 2
Dialog: None
Explanation: Robert and Person 2 take turns signing the contract. Coalease would enable this and hence both actors are signing the contract in the space representing Coalease's "app."
